

How Do I Setup Saved Searches in EBSCO?

Would you like to save a search to run again later or to be alerted when new articles are published concerning a topic? Set up a Search Alert or Saved Search!

EBSCOhost offers Search Alerts and Saved Searches.

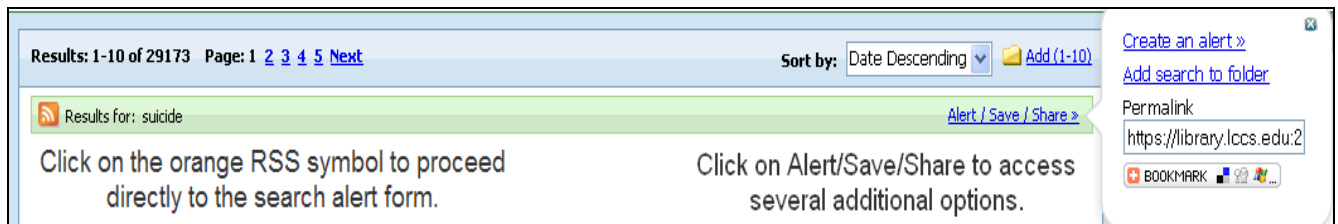

- ⇒ **Search Alerts** send you an e-mail when new articles that match your search are added to the database.
- ⇒ **Saved Searches** allow you to run the search again at your convenience.

Note: Search Alerts and Saved searches query a single database at a time. To conduct a thorough search, set up Search Alerts in multiple databases.

- To utilize Search Alerts Saved Searches and other features available in EBSCOhost, you must first set up My EBSCOhost.

- Fill in the requested information to set up your personal My EBSCOhost account.
NOTE: Neither the Jessie C. Eury Library nor CT are able to assist you in recovering your EBSCOhost username and password.
- After creating an account, complete a search in the database of your choice.

Create Alert ?

Search Alert: "suicide on 2010-01-11 03:41 PM"

E-mail Fill in the form below to create an email search alert OR

Subject EBSCO Alert: suicide on 2010-01-11 03:41 PM **Hide addresses from recipients**
